Associate or Full Professor in Drug Formulation and Analysis

Faculty of Pharmacie

The Faculty of Pharmacy is looking for an Associate or a Full Professor in drug formulation and analysis. This faculty position is tied to the 2022 Canada Excellence Research Chairs (CERC) program and can only be filled by candidates who will be awarded a CERC. The yearly allocation for the institution is $5M. Under this program, Chairholders will be awarded either $500,000 or $1 million per year for a period of 8 years and level of research award will be established as a function of the demonstrated needs of the research program. The successful candidate will be expected to collaborate on Chair application until its submission in September 2022.

As the most important francophone faculty of pharmacy in North America, the Faculty of Pharmacy of the Université de Montréal is devoted to ensuring leadership in education and delivering state-of-the-art research on drug development and pharmaceutical care. With their commitment and pursuit in innovation, our professors are dedicated to the training of the next generation of professionals and experts who influence society as a whole and the scientific community, thus sustaining the faculty’s international recognition and reputation. By joining our faculty as an Associate or Full Professor in drug formulation and analysis, you will contribute to our mission which is to ensure leadership in education and pharmaceutical research, through an innovative and interdisciplinary approach that allows us to overcome society’s important health challenges. For more information, please visit us at pharm.umontreal.ca.

Roles

Research: The successful candidate will be expected to develop an independent, competitive and original research program in drug formulation and analysis. More specifically, priority will be given to research themes oriented towards the field of bio-innovations in pharmaceutical technologies, including the development of new pharmaceutical forms for the vectorization of active ingredients. It is expected that the successful candidate will have demonstrated expertise in the science of biomaterials, their chemistry and their applications in the pharmaceutical and biomedical fields. The successful candidate will be offered the opportunity to obtain start-up funds from the Faculty and apply for infrastructure funding from the Canada Foundation for Innovation (CFI).
**Teaching:** The successful candidate will actively take part in the teaching mission of the Faculty at both the undergraduate and graduate levels in the field of drug formulation and analysis. She or he will also contribute to the supervision of undergraduate and graduate students.

**Impact and contribution to the successful functioning of the organization:** The successful candidate will participate actively in the development of the discipline through conferences, publications or scientific activities related to his or her field of expertise. He or she will participate to the proper functioning of the institution by attending and contributing in Faculty or University committees.

**To apply, you will need to:**

- Hold a Ph.D. in a discipline relevant to the position, namely drug formulation, pharmaceutical sciences, biomedical engineering, chemistry or biomaterials engineering.
- Have completed a postdoctoral training or equivalent in a field relevant to the position;
- Be an associate or full professor;
- Having a pharmacy education is an important asset;
- Have an adequate knowledge of the French written and spoken language or a strong commitment to mastering the proficiency level required, in accordance to Université de Montréal's Language Policy. An institutional learning support program is offered to all professors wishing to learn French or improve their communication skills.

**How to submit your application**

We invite you to submit your resume, a two-page description of your research program for the next four years, a cover letter indicating how you envision your integration at the Faculty of Pharmacy regarding research and teaching, and three letters of recommendation before April 29th, 2022. Documents can be emailed to:

**Lucie Blais, Ph.D.**
Vice-doyenne aux affaires professorales
Faculté de pharmacie, Université de Montréal (lucie.blais@umontreal.ca)

DIVERSITY AND INCLUSION

Université de Montréal is strongly committed to fostering diversity and inclusion and has implemented an Equal Access Employment Program (EAEP). UdeM invites applications from women, Aboriginal people, visible and ethnic minorities, as well as persons with disabilities, and persons of minority sexual orientations and gender identities. At any stage of the recruitment process, our selection tools can be adapted to the needs of people living with limitations who request them: they are invited to communicate in confidence with Professor Jean-Pierre Blondin, Associate Vice-Rector, Faculty Affairs, by email or phone at 514-343-6404.

In order to measure the impact of its equity, diversity and inclusion actions, UdeM is collecting data on applicants identifying themselves with one of the groups targeted by the Equal Employment Opportunity Act, namely women, Aboriginal people, visible minorities, ethnic minorities and people with limitations. To this end, we thank you for completing this self-identification questionnaire. The information you provide through this form is strictly confidential and will be shared only with those responsible for the UdeM EAEP. If you wish, you may also indicate that you belong to one of the targeted groups in your cover letter, which will be reviewed by the selection committee and the assembly of peers.

Université de Montréal further recognizes and fairly considers the legitimate impact of leaves (e.g., parental leaves, delays caused by illness or disability, COVID-19 impacts) that may contribute to career interruptions or slowdowns. Candidates are encouraged to signal any leave that may have had an effect on productivity or on their career path. This information will be carefully weighed to ensure the equitable assessment of candidates records.

Université de Montréal’s application process allows all members of the Professor’s Assembly to review the application files submitted. If you wish to keep your application confidential until the short list is established, please mention it in your application.

In accordance with Canadian immigration requirements, priority will be given to Canadians and permanent residents.
